

INTERACTIVE JUNIOR FEEDER

Eating healthy and natural

The **Aikiou** is a puzzle feeder where you can hide your dogs food. Many people dont know that dogs are used to burry part of their catch after hunting their prey. This is why dogs like to dig so much. With this dog puzzle feeder, your dog will eat at a slower pace.

If your dog need a bigger challenge, you can put a tennis ball under the Junior dog slow feeder. The bowl will now wobble and turn on its own to make it more difficult and challenging than any other dog slow feeder. This is just a little bonus if you like to have fun.

Easy to fill, this dog feeder can contain up to 2 and a half cup of food. It's not different then using a standard slow feeder. Just makes it more natural and entertaining for your dog.
